PROFESSIONAL PROFILE

I Am a Geology Engineering graduate with several working experiences, I am a conscientious person who works hard and pays attention to details, quick up new skills and eager to learn from others.

EXPERIENCE

Geotechnician

Feb 2022 – Present

PT.Indonesia Carbon Energy (job site PT.Berau Coal)
Berau, East Kalimantan

- Evaluation of plan vs. actual drilling.
- Core logging full coring method (collecting data of physical characteristics of rocks, weathering level, RQD, GSI, rock defect, roughness), Pumping test, slug test, and piezometer installation.
- Soil logging (SPT method: boundary swamp, physical characteristics, plasticity).
- Incline drain hole (open hole drilling).
- Geotech sampling : (UCS, DS, and UDS).
- Responsible for implementing the exploration activities Health Safety and Environment (HSE) according to procedures including Coaching, Observation, and Inspection.

Wellsite Geologist

Jan 2022 – Feb 2022

PT.Indonesia Carbon Energy (job site PT.Berau Coal)
Berau, East Kalimantan

- Survey (stake out) location of drilling plan, and stake in by the SGI department, Moving rig, drill pad and access planning.
- Drilling activities (open hole drilling, part-coring drilling).
- Reporting and evaluation of drilling activities.
- Responsible for implementing the exploration activities Health Safety and Environment (HSE) according to procedures including Coaching, Observation, and Inspection.

Wellsite Geologist

Sept 2021 - Nov 2021

PT.Quantus Consultant Indonesia (job site PT.Nunukan Bara Sentosa Satu (Medco Group)
Sei Manggaris, North Kalimantan

- Survey (stakeout) the location of the drilling plan, Moving rig, drill pad, and access planning.
- Drilling activities (open hole drilling, part-coring drilling).
- Reporting and evaluation of drilling activities.

Mapping Surveyor

Aug 2020 – Sept 2021

BAPENDA DKI Jakarta

- Mapping the areas of buildings such as houses, office buildings, restaurants, hotels, and entertainment venues in an area based on the land and building taxes
 - Coordinating with local governments to verify mapped buildings.
 - Produce digitation building maps using supporting software (ArcGIS/QGIS).
-

CERTIFICATES

E-Certificate Estimation Overview of Minerals Reserves Case Studies Open Pit Methods and Mining Management Programs (MINERBA)	2020
General Lecture of Oil and Gas Industry (SKK MIGAS)	2017
Conservation of Minerals and Impact of the Problem Solved (ASSOCIATION OF INDONESIA GEOLOGIST)	2014

TRAINING & COURSES

Emergency First Aid Training (PPGD) (PT.Berau Coal)	2022
Competency Frontline Operation Management (Pengawas Operasional Pertama BNSP) (PT.Bara Indo Berjaya)	2020

ORGANIZATION EXPERIENCE

Association of Geological Engineering Students Pakuan University, Bogor – 2015/2018	2015 - 2018
Students Executive Board (BEM) Pakuan University, Bogor – 2014/2018	2014 - 2018

EDUCATION

Pakuan University Geological Engineering / GPA 3.10	2014 - 2019
Al-Haramain Saudi Academy Senior High School	2011 - 2014

LANGUAGES

- Bahasa
- English
- Arabic

SKILLS

- Ms.Office
- ArcGIS
- QGIS
- Global Mapper
- Communication & Collaboration
- Analysis, Sampling, Technical
